

Muhammad Umar Farooq

0349-4075548 | mufarooq729@gmail.com ([GitHub](#) | [LinkedIn](#))

Summary:

BsCS student with practical experience in web development and artificial intelligence through multiple academic and personal projects. Experienced in building responsive websites, REST APIs, database-driven applications, and AI-integrated solutions. Passionate about software engineering, problem-solving, and continuous learning. I have also worked in IEEE society.

Projects

Online Food Ordering System: [GitHub](#)

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

Description:

- Designed a responsive and user-friendly interface for customers.
- Developed backend APIs for order processing and user management.
- Integrated MongoDB for storing customer, restaurant, and order information.
- Optimized application performance, order tracking and database queries.

Web Scraping & Data Extraction Tool: [GitHub](#)

Technologies: Python, BeautifulSoup, Requests, Pandas, etc

Description:

- Extracted structured data from multiple websites using BeautifulSoup and Requests.
- Automated data collection and cleaning processes through automation.
- Exported scraped data into CSV and Excel formats using Pandas.
- Implemented error handling and request optimization for reliable scraping.

Social Media Platform (Full-Stack Web Application): [GitHub](#)

Technologies: React.js, Node.js, Express.js, MongoDB, Vite, Typescript Fast APIs

Description:

- Developed a responsive social media platform supporting user register, login, and profile.
- Implemented secure authentication and authorization using Typescript.
- Built features including post creation, likes, comments, and user interactions.
- Integrated Fast APIs with MongoDB for efficient data management.

Education:

- UET, BS Computer Science Present-2024
Work in Tech field in IEEE Society

Skills & abilities:

- **Languages:** JavaScript, C++, Python, Artificial Intelligence
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, Python, Django
- **Databases:** MySQL, Oracle, MongoDB
- **Concepts:** Fast APIs, OOP, Data Structures, Networking Basic, Artificial Intelligence
- **Soft Skills:** Problem Solving, Mathematics, Team Collaboration, Time Management
- **Libraries:** NumPy, Pandas, BeautifulSoup, Requests
